HDMI EXTENDER

Take Your HDMI Further

HDMI Extender increases the range of your HDMI signal to up to 100 feet. When the distance is too great, it increases likelihood of noise or signal loss. HDMI Extender boosts the video and audio signals and removing signal noise so as to ensure signal transmission to your display.

Features:

- Extend the distance between your HDMI source and your display
- Maintain the video/audio quality
- Easy to use coupling device

Specifications:

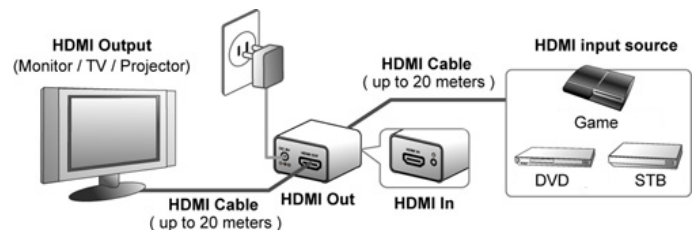

- Input/Output
 - One HDMI input and one HDMI output, Type A 19 pin female port
- Supported Resolutions
 - 480i/p, 576i, 720p, 1080i/p
- Power - 5VDC, 1A
- Maximum Resolution - 1080p
