

3 Port 1394b/Firewire 800 PCI Card

The Turbo 1394b PCI card offers you twice as much speed as 1394a cards and makes this the card of choice for high speed storage and video capture solutions.

More Efficient: 1394b reduces data delays on the bus and reduces signal distortion for increased throughput. Rely on Real Time Delivery - critical for audio and video applications where dropped or out of order frames are unacceptable.

Easier to Use: No matter how you connect 1394 devices together, they just work! You can daisy chain drives together connect 1394a devices to 1394b devices, really Plug and Play! Connect up to 63 devices and also create a peer to peer network with two Windows XP machines
